

Halifax Pre-Consultation

PROPOSED BUSHFIRE MITIGATION WORKS 2026–2027

As part of the Shire's ongoing commitment to reducing bushfire risk across our community, we regularly plan and undertake mitigation activities on land that the Shire owns, manages or controls. These proactive works help reduce the potential impact of bushfires, supporting community safety and helping protect residents, properties and first responders.

We're writing because we are considering a mitigation treatment in your area, and we'd like to understand any local issues or concerns before we progress further. At this stage, the treatment below is proposed only and may change based on resident feedback, approvals and resourcing.

OBJECTIVE:	To improve ground crew access within Reserve 31196 for mitigation and emergency purposes through the installation of firebreaks, and to improve the safety of adjoining residents through fuel load reduction.
LOCATION:	Reserve 31196, Lot 315 Halifax Place (eastern end of Jacoby Street), MUNDARING Refer to map on reverse for more detail.
TYPE OF WORKS:	Firebreak installation and forestry mulching.
EXTENT OF WORKS:	Approximately 0.213km of firebreaks (to standard, 4m height / 3m width), plus 0.201ha area for fuel load reduction.

What this might mean for you:

- If the treatment is progressed, we will mail an upcoming works card with details on how to view information about bushfire mitigation works in your area (and across the Shire) via our interactive Engage Mundaring platform: www.engage.mundaring.wa.gov.au/bushfire-mitigation-works). You can also scan the QR code to visit the site and sign up for automatic updates, so you're always in the loop.
- In some locations, residents may notice activity such as contractors, machinery, temporary signage and/or traffic management.

Shire of Mundaring Bushfire Mitigation

If you have feedback, questions, or local knowledge we should consider (for example: access needs, sensitive areas, drainage concerns, preferred timing, or any previous issues), we'd really appreciate hearing from you.

If you would like to discuss the proposed treatment in more detail, please don't hesitate to contact the Shire's Emergency Management Team.

Thank you for your time and for helping us improve bushfire safety across the Shire.

Kind regards,

EMERGENCY MANAGEMENT TEAM
